

STANDARD PRICE LIST – January 2021

----- ADX-SERIES NETWORKED AUDIO PRODUCTS -----

<b>ADX-3200</b>	<b>ANALOG DANTE INTERFACE UNIT [Analog I/O, Dante].....</b>	<b>\$3950</b>
	Interfaces 64 channels of audio to Dante audio network. 32 Channels Transmit and 32 Channels Receive. 16 x 8 four-wire PL matrix is provided for 'thumbwheel' type PL assignments. Also includes level control, metering, test tone generator and built-in fiber connectivity on ST single-mode connectors, in a compact 1RU package. 24 Analog inputs and outputs. The ADX-3200 is the ideal 'all-in-one' solution to adding Dante networking capability to mobile units or studio facilities.	
<b>ADX-2400M</b>	<b>MADI DANTE INTERFACE UNIT [MADI I/O, Dante] .....</b>	<b>\$4750</b>
	Provides 24 channels to and 24 channels from the Dante network with MADI local I/O. MADI can be either coax or fiber. Also includes level control, metering, test tone generators. The ADX-2400M can also be used to provide a high-quality clock reference to a Dante network.	
<b>ADX-120</b>	<b>ANNOUNCE UNIT (Dante Version) .....</b>	<b>\$1800</b>
	Compact unit to provide full announce booth capabilities via Ethernet. Each ADX-120 provides 2 mic inputs, 2 two-channel IFB/PGM feeds, 2 talkback circuits, and a 2-channel PL circuit.	
<b>ADX-140</b>	<b>XLR INTERFACE PANEL (Dante Version) .....</b>	<b>\$2250</b>
	Provides 4 Mic/Line inputs, 2 wet or dry IFBs, 2 Program feeds, and 2 channels of wet PL, all via a single Ethernet connection.	
<b>ADX-60</b>	<b>COMPACT DANTE INTERFACE UNIT .....</b>	<b>\$1600</b>
	4 Inputs (2 Analog, 2 AES) and 12 outputs (6 Analog, 6 AES) to Dante network. Built-in fiber connectivity, in a versatile, compact unit.	
<b>ADX-8000</b>	<b>ETHERNET SWITCH AND DUAL POWER SUPPLY .....</b>	<b>\$2200</b>
	1RU Ethernet switch and dual, fully-redundant power supply for ADX-120/140s. Switch provides four bi-directional gigabit fiber ports, and eight copper ports configured for ADX-120s and ADX-140s	
<b>ADX-CONV</b>	<b>CONVERSION OF COBRANET ADX UNIT TO DANTE .....</b>	<b>\$400</b>
	Conversion of existing ADX device (120, 140, or 2400) to Dante Protocol Includes Lance Design Dante network board and firmware update.	

----- VTR / DISK CONTROLLERS -----

<b>TDC-100</b>	<b>TD'S DISK CONTROLLER with USB PORT.....</b>	<b>\$3950</b>
	Popular, highly-acclaimed controller for interfacing disk recorders and servers to production switchers.	
<b>VC-422C</b>	<b>RS-422 ROUTER .....</b>	<b>\$3800</b>
	Permits control grouping of up to 24 VTRs via "smart" routing of RS-422 control lines. Also functions as an advanced "gang-roll" controller.
