

STANDARD PRICE LIST – April 2019

----- ADX-SERIES NETWORKED AUDIO PRODUCTS -----

ADX-3200 <i>(New Product)</i>	ANALOG DANTE INTERFACE UNIT [Analog I/O, Dante]..... Interfaces 64 channels of audio to Dante audio network. 32 Channels Transmit and 32 Channels Receive. 16 x 8 four-wire PL matrix is provided for 'thumbwheel' type PL assignments. Also includes level control, metering, test tone generator and built-in fiber connectivity on ST single-mode connectors, in a compact 1RU package. 24 Analog inputs and outputs. The ADX-3200 is the ideal 'all-in-one' solution to adding Dante networking capability to mobile units or studio facilities.	\$3950
ADX-2400M	MADI DANTE INTERFACE UNIT [MADI I/O, Dante] Provides 24 channels to and 24 channels from the Dante network with MADI local I/O. MADI can be either coax or fiber. Also includes level control, metering, test tone generators. The ADX-2400M can also be used to provide a high-quality clock reference to a Dante network.	\$4750
ADX-120	ANNOUNCE UNIT (Dante Version) Compact unit to provide full announce booth capabilities via Ethernet. Each ADX-120 provides 2 mic inputs, 2 two-channel IFB/PGM feeds, 2 talkback circuits, and a 2-channel PL circuit.	\$1800
ADX-140	XLR INTERFACE PANEL (Dante Version) Provides 4 Mic/Line inputs, 2 wet or dry IFBs, 2 Program feeds, and 2 channels of wet PL, all via a single Ethernet connection.	\$2250
ADX-8000	ETHERNET SWITCH AND DUAL POWER SUPPLY 1RU Ethernet switch and dual, fully-redundant power supply for ADX-120/140s. Switch provides four bi-directional gigabit fiber ports, and eight copper ports configured for ADX-120s and ADX-140s	\$2200
ADX-CONV	CONVERSION OF COBRANET ADX UNIT TO DANTE Conversion of existing ADX device (120, 140, or 2400) to Dante Protocol Includes Lance Design Dante network board and firmware update.	\$400

----- VTR / DISK CONTROLLERS -----

TDC-100	TD'S DISK CONTROLLER with USB PORT..... Popular, highly-acclaimed controller for interfacing disk recorders and servers to production switchers.	\$3950
VC-422C	RS-422 ROUTER Permits control grouping of up to 24 VTRs via "smart" routing of RS-422 control lines. Also functions as an advanced "gang-roll" controller.	\$3800
